

FEATURED PROJECT

Allegheny Dwellings

Housing Authority of the City of Pittsburgh

Overview: This project consisted of the new construction of 65 units of mixed income housing in four story apartment buildings, duplexes, and townhomes. This is the latest in the Housing Authority of the City of Pittsburgh's plan for redevelopment of their current housing sites into new, mixed income communities. AWK was the prime consultant on this project.

Services Provided: Surveying, ALTA Topographic/Boundary Survey, Exhibits for Vacating of Existing Paper Streets, Subdivision Plats, Legal Description of New Phase 1 Parcels, Planning Module Exemption, Geotechnical Engineering, Geotechnical Drilling, Undercut Design, Demolition Design Drawings and Specifications, Demolition Oversight, Site Design Oversight, and Utility Coordination Services.
