

Errol S. Abdulla, PE

PRESIDENT

Mr. Abdulla started AWK Consulting Engineers, Inc almost four decades ago, giving him a wealth of experience in Geotechnical and Civil Engineering. He holds a Bachelor's of Science degree in Civil Engineering and a Master's of Science in Geotechnical Engineering from the University of Illinois. He routinely manages and supervises geotechnical/civil projects associated with public infrastructure such as highways, bridges, waterways and flood control structures, retaining walls, and transit. He also has experience in developing Emergency Action Plans, excavation support systems, and pavement evaluation, analysis and design. He has performed value engineering and developed alternate designs on several Pennsylvania Department of Transportation geotechnical stabilization projects. Additionally, he has performed geotechnical QA/QC reviews on over 100 highway and bridge projects for various transportation agencies such as Florida DOT, Pennsylvania DOT, Florida Turnpike, Central Florida Expressway, US Army Corps of Engineers and many other public agencies and private clients. Finally, Mr. Abdulla has also provided litigation support (expert witness report and expert witness testimony) on several projects involving landslides and excavation support. Mr. Abdulla continues to grow AWK Consulting Engineers, which now operates four locations nationwide.
