

Edward B. Smith

HARRISBURG BRANCH MANAGER

Mr. Smith has over 26 years of experience and expertise in environmental consulting and project management. He holds a Bachelor's Degree in Environmental Resources Management from Pennsylvania State University, at University Park and a Master's of Environmental Pollution Control from Pennsylvania State University, at Middletown.

Mr. Smith has extensive experience working in the transportation industry in PA. Currently, he oversees the daily operations of the Harrisburg branch office, covering the eastern half of the state, including the areas encompassed by PennDOT Districts 2, 3, 4, 5, 6, and 8. The business sectors offered from the Harrisburg office include geotechnical, survey, and environmental. Mr. Smith's duties include managing personnel, business outreach, technical and price proposal preparation, project management, internal scheduling, document review, and direct guidance to the environmental department.

Mr. Smith oversees the entire environmental process where he manages the environmental staff to successfully complete environmental documentation for projects ranging from bridge replacement projects to transportation projects encompassing many square miles. He can reallocate staff as needed to ensure delivery of a work product. Mr. Smith has a background in performing Environmental Site Assessments (ESA), conducting Phase I, II, and III ESAs. He has provided oversight as a Health and Safety Officer on Hazardous Waste sites, prepared Remedial Investigation Work Plans, Site Safety and Health Plans, Quality Control Plans, and Quality Assurance Project Plans. He is also proficient in preparation of Wetland Identification and Delineation Reports, Categorical Exclusion Evaluations, Environmental Assessments, and Environmental Impact Statements. Mr. Smith has designed wetland mitigation and stream relocation projects to compensate for project impacts. Mr. Smith is recognized by the USFWS as having the skill set, understanding, and training to conduct Phase I Bog Turtle Surveys. His experience extends to inspections for environmental and geotechnical drilling for hazardous material sampling and structural design, and is a certified asbestos inspector. Mr. Smith is also lead personnel for all public involvement functions.
